**Re: Capgemini U.S. LLC v. EC Manage, Inc., 10 Civ. 2486 (GBD)**

Dear Judge Daniels:

We represent plaintiffs Capgemini U.S. LLC and Capgemini Applications Services LLC (collectively, "Capgemini") in the above-referenced breach of contract action against defendants EC Manage, Inc. and TPX Global Corporation (collectively, "Defendants"). Defendants are in default.

Capgemini is proceeding with a motion for a default judgment but needs to work through some damages issues before the motion is submitted. After conferring with Chambers, we requested that the last conference (which had been scheduled on Rosh Hashanah) be adjourned until September 23, 2010, which Chambers told us was an open date.

Unfortunately, the conference was rescheduled for September 28, 2010, when I am scheduled to be in Dallas, Texas for depositions scheduled some time ago. As I am the attorney most familiar with the case, we respectfully request that the conference be rescheduled one last time. We ask that the conference be rescheduled for October 12 or 14, 2010, which Chambers has informed us are open dates.
